

# APRIL

April is a month of rain and sunshine that helps flowers and plants grow. Just like a garden, our hive will grow with each new Jobie to Bee!

## **Hive Huddle focus:**

How to grow a plant from seeds

## **Activity of the Day:**

This month, we are going to learn how to plant seeds to make a sunflower grow! Later in the month, we will check in on our plant's progress and learn what a growth mindset is.

"This month we're learning about how planting little seeds can grow into something big and beautiful - just like our hive!"

And guess what? YOU are a big part of helping our hive grow! When you talk to your friends about Jobies and invite them to join, you're planting the seeds that help our hive get stronger, brighter, and even more fun!"
