

# Kezia

Job's second daughter was named Kezia, which means "cassia." Cassia is an ingredient in incense. Today, we call cassia by a different name - cinnamon.

In Job's Daughters, we use the symbol of the Urn of Incense to remind us about Kezia. Because incense was used during prayers, this symbol reminds us of the importance of prayer and having a daily conversation with God.

We can imagine Kezia as a faithful and devout woman who was dedicated to serving God. She is a role model to all Job's Daughters, reminding them to be faithful and to worship God on a regular basis.

# Urn of Incense

This is a picture of an Urn of Incense. It was often used while people were praying during the time of Job. (It looks a little like Aladdin's lamp!) Incense (a blend of spices that smells pleasant) would be placed inside the lamp and lit on fire. The scent of the incense would then come out through the spout.

Incense has been used in many different religions for centuries, including Christianity, Judaism, and other religions. The smoke from the incense represents the prayer being taken up to Heaven. This symbolism is seen in Psalm 141, Verse 2: "Let my prayer be directed as incense in thy sight: the lifting up of my hands, as evening sacrifice."

The Urn of Incense is a symbol of Job's second daughter, whose name was Kezia, which means "cassia." Cassia is a spice used in incense. We still use cassia today, but we call it by a different name -- we call it cinnamon!
