

OCTOBER

October is here, Jobies to Bee!

With golden leaves, cozy days, and Halloween just around the corner, this month is full of magic, and we can't wait to spend it with you!

Hive Huddle focus:

Traditions and flowers

Activity of the Day:

This month, we share about what a tradition is, and we learn about JDI's own special flower – the lily of the valley!

"Our traditions are like a magical treasure map - they show us where we came from, help us celebrate the fun we have today, and lead us to awesome adventures in the future!

You are already an important part of the traditions in BC Job's Daughters. Without you, our hive would be like a cupcake with no frosting - still sweet but missing the best part!"
